Reasoning:

Money will be an ongoing struggle with upgrading, maintaining, and operating City Parks. The above list is a very optimistic proposal for the next 5 years. My rationale is to take the existing master plans that are on the shelf and the playground rotation schedule and combine the two. None of this is set in stone and it can be changed. Grant money isn't a guarantee and the CIP funds cover both Parks and Stormwater projects. Stormwater projects have the potential of becoming priority projects. Mona Dr. is a good example of this. In the FY18 budget, \$300,000 is requested to stabilize the section of river along Mona Dr. A rough guestimate is that if the City committed the entire \$675,000 available for Parks and Stormwater CIP this would not be enough money to complete this project.
