STAFF REPORT

MEETING DATE: October 10, 2018
APPLICANT: Councilmen Jeffery Hales and Steve McMahon
Location: 7300 block of Forsyth Blvd
Request: Initiate 1hour Parking
Attachments: N/A

7300 block of Forsyth Blvd subject to proposed parking changes

Request:

That the Traffic Commission consider a new parking regulation on Forsyth. It involves the 7300 Block of Forsyth on the north side of the street which has come before the commission on several occasions in the last couple of years and the chronic and documented issue of daily non-resident long-term parking.

The request propose that specifically, 7301-7331 Forsyth on the north side of the street be restricted to 1 hour parking between the hours of 8AM and 5PM Monday thru Friday.

Conclusion/Recommendation:

It is recommended that the Traffic Commission consider this new parking restriction for Forsyth Blvd to be added to the parking restrictions code.

STAFF REPORT

MEETING DATE: October 10, 2018
APPLICANT: City of University City
Location: Jackson Ave from University Drive to Southern City Limits
Request: No Parking Signs
Attachments: Traffic Request Form

Existing Conditions:

Jackson and University Intersection.

At this location the residents have fear of safety of entering and exiting their driveway due to the constant parking of vehicles for hours at a time.

Request

Place No Parking signs in the area from University to City Limits.

Conclusion/Recommendation:

City staff recommends that the Traffic Commission approve this request due to the safety concerns. This would meet with Clayton's No Parking restriction on the west side of Jackson.

STAFF REPORT

MEETING DATE: October 10, 2018
APPLICANT: City of University City
Location: 500 Block of Kingsland Avenue Eastside
Request: Residential Parking Permit request
Attachments: N/A

Existing Conditions:

6683 Kingsbury

At 6683 Kingsbury the residents of this building are experiencing difficulty in finding parking because of the high number of nonresidents parking in the area and the recent adoption of the a residential parking permit in the 6600 block of Kingsbury.

The building at 6803 Kingsbury received inclusion in the residential parking permit system in 2011 for the frontal part of the building and the west side of Kingsland. This makes it very difficult for the residents at 6803 Kingsbury to find parking.

The street is within two blocks of Washington University or another municipality's boundary and the problems caused by nonresident parking* on the block are chronic and well-documented.

Request:

Include 6683 and 502 Kingsland in the Residential Parking Permit System on Kingsland Avenue between Kingsbury and the alley just north of Kingsbury.

Conclusion/Recommendation:

It is recommended that the Traffic Commission determines the list of affected households for a petition to implement the residential parking permit system.
