To Whom it May Concern-

We are University City residents and enjoy the various recreation options offered through the Park District. Curious if there is any plan to convert any of the outdoor tennis courts to pickleball? Pickleball is the fastest growing sport in the area. The rec center does have indoor pickleball but there are no outdoor courts for U City residents. It appears that there were some lines drawn on the two upper courts at Flynn Park although they have drastically faded and the net is too high.

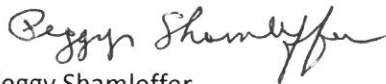

An option would be Kaufman Park. Driving to Ruth Park we pass those courts and they do not seem to be full from our experience. Perhaps Heman Park could convert 2 courts and create 4 pickleball courts? Please let us know if there is any plan for outdoor courts and/or if there is something more we need to do to assist in the process.

Thanks for your consideration.

Sincerely,

Mark Shamleffer
