Governmental Organizations**

*For more than 40 years, our mission has
been to help municipal governments
gather and use survey data to enhance
organizational performance.*

Purpose

To gather objective feedback from residents on city services to better serve residents

To compare the City's performance to U.S. and Regional Averages

To help determine priorities for the City using Importance-Satisfaction Analysis

Methodology

Survey Description

- 3rd Resident Survey conducted for the City by ETC Institute

Method of Administration

- By mail and online to a random sample of households
- Each survey took approximately 16-18 minutes to complete

Sample Size

- **Goal:** 600 completed surveys
- **Completed:** 608 completed surveys were collected

Margin of Error

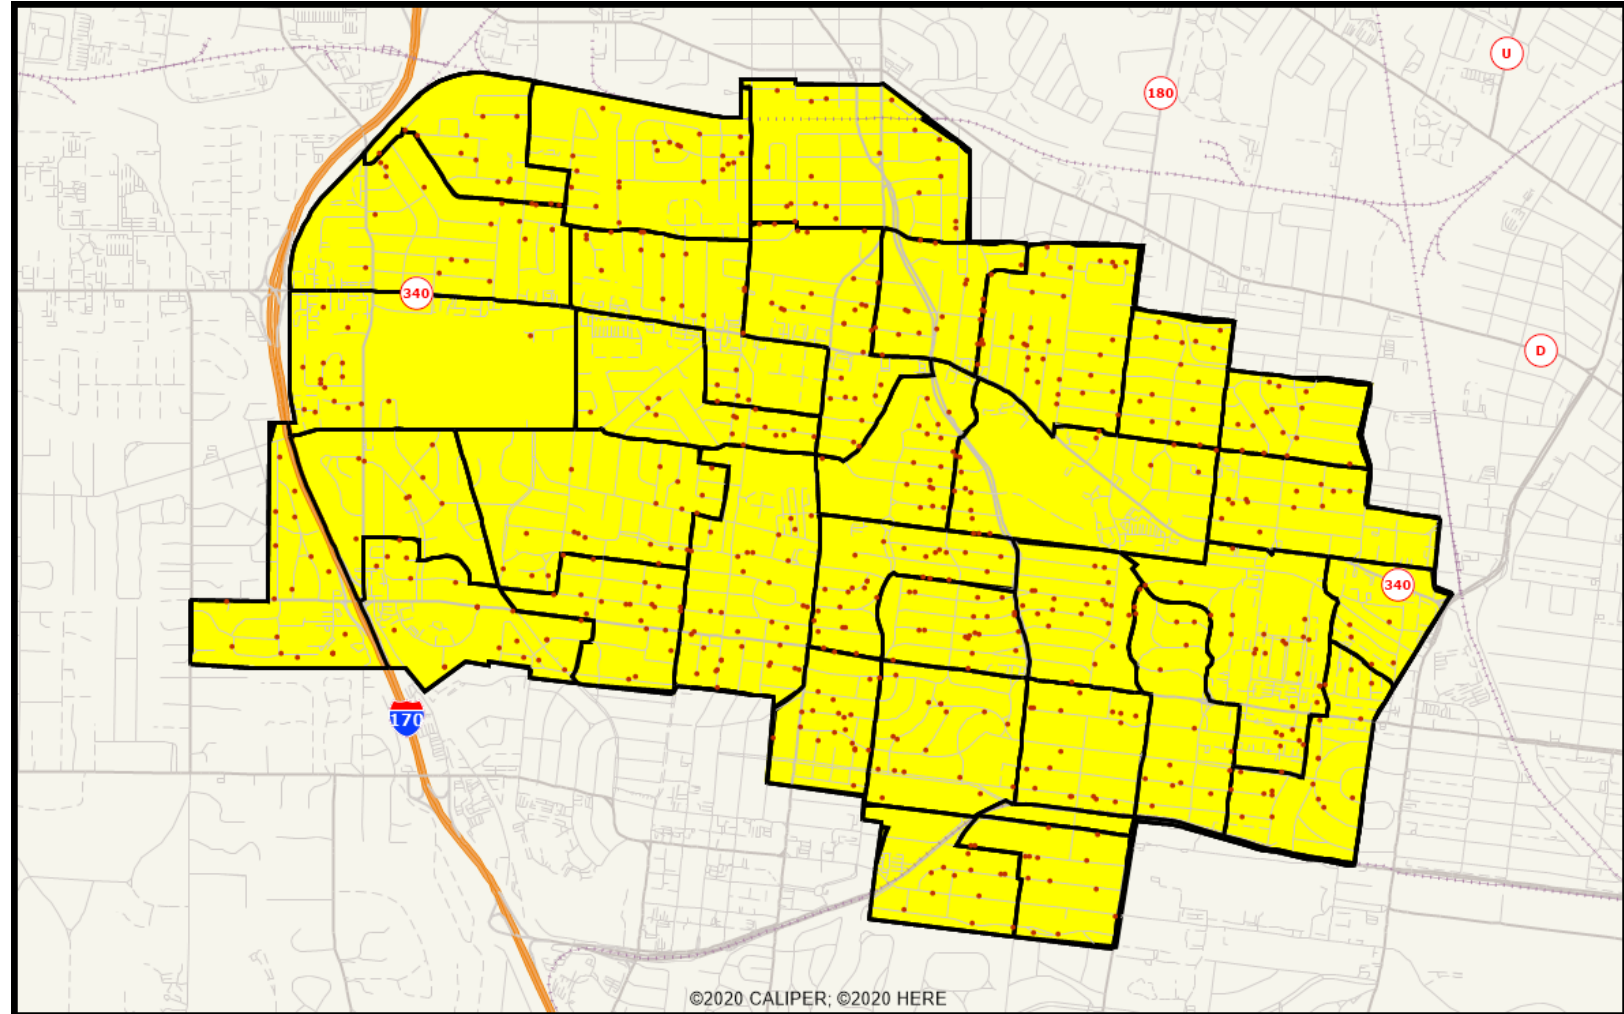

- +/- 4.0% at the 95% level of confidence

Location of Survey Respondents

Good representation of responses throughout the City

Home address of all respondents are geocoded to the block level to ensure anonymity

In addition to geographic representation, ETC Institute also achieved a good demographic representation in the results

University City Community Survey Respondents Map

Benchmarks

THE CITY RATES MUCH HIGHER THAN OTHER COMMUNITIES

Benchmarks

The City's survey contained 41 questions that were directly comparable to ETC Institute's benchmarking databases

The U.S. Average is based on a national survey administered during the summer of 2023 to a random sample of more than 10,000 U.S. residents

The Plains Average is based on a national survey administered during the summer of 2023 to a random sample of more than 2,000 residents living in Missouri, Kansas, Iowa, Minnesota, Nebraska, North Dakota, South Dakota, Oklahoma, and Wisconsin

Benchmarks

University City rated above the U.S. and Plains Average in 32 of the 41 areas assessed

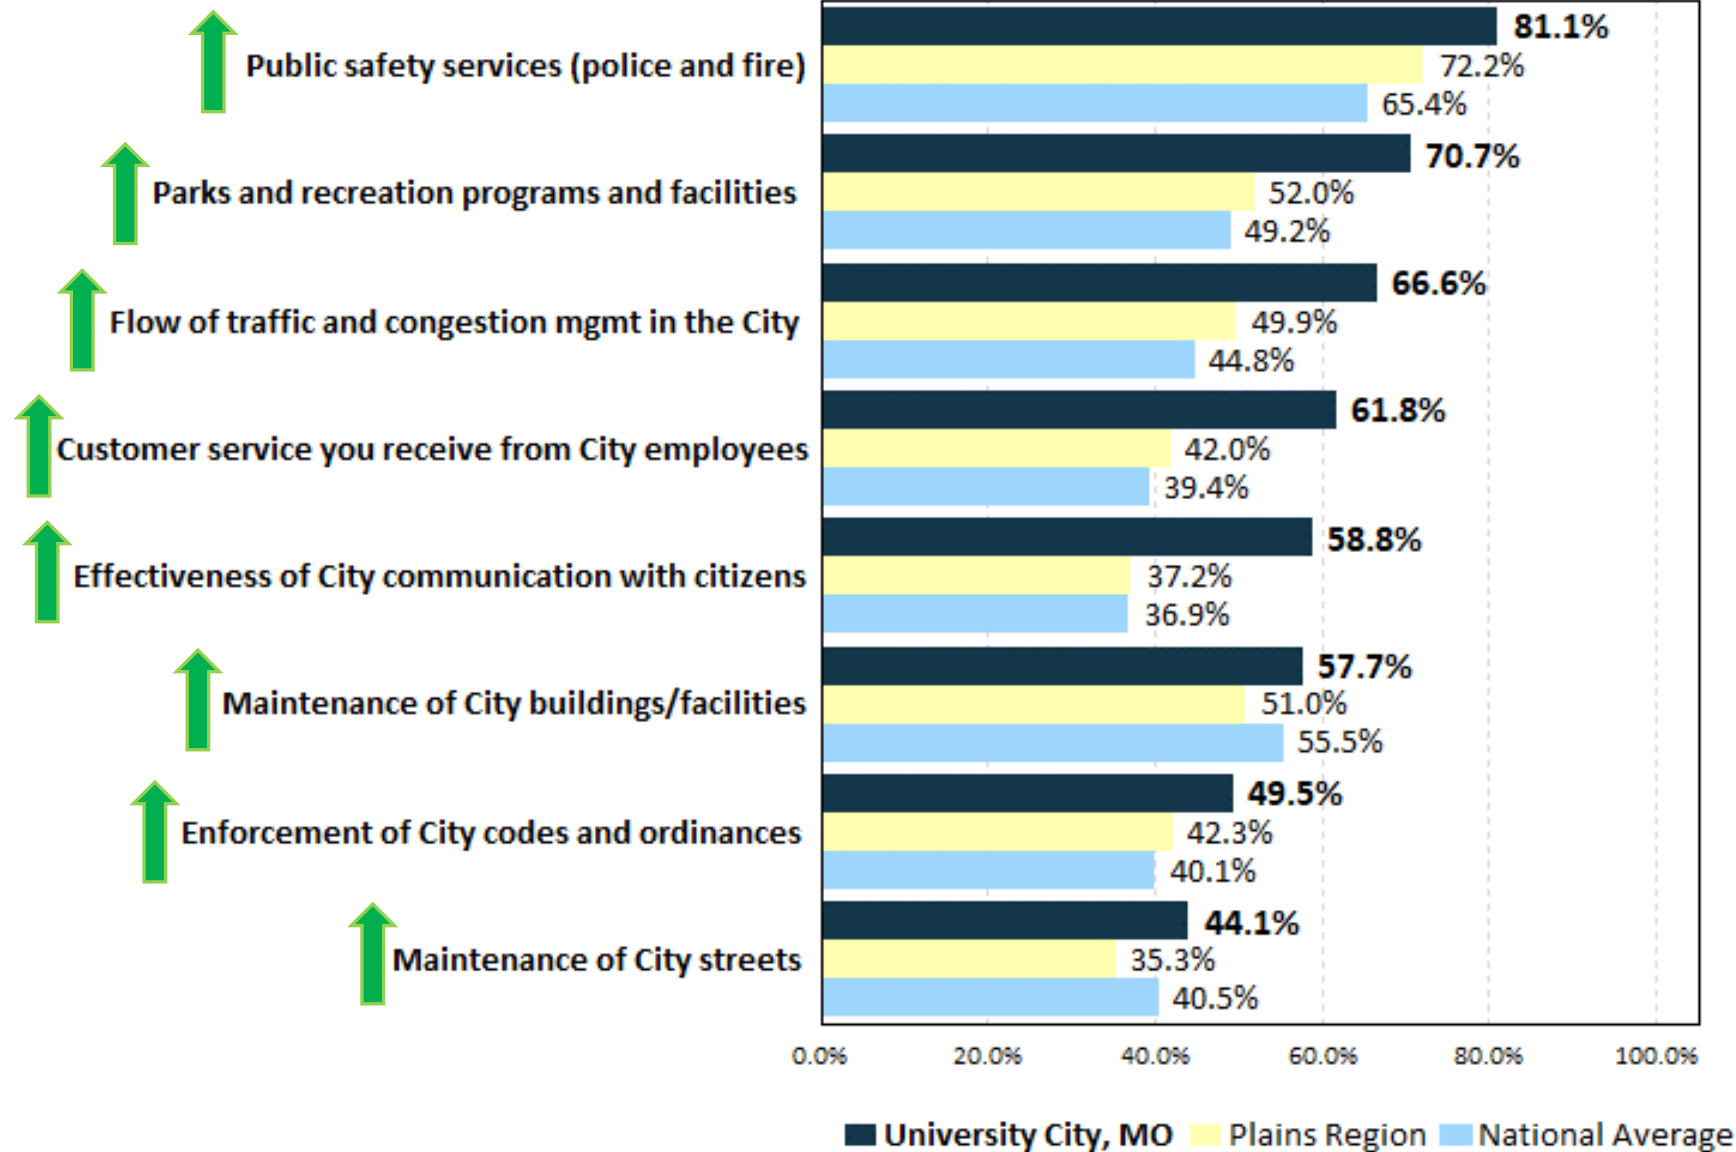

Significant differences are considered those of 4 percentage points or more

The City rated significantly higher than the U.S. Average in 26 of the 41 areas assessed (63.4%)

The City rated significantly higher than the Plains Average in 29 of the 41 areas assessed (60.7%)

Satisfaction with Major City Services

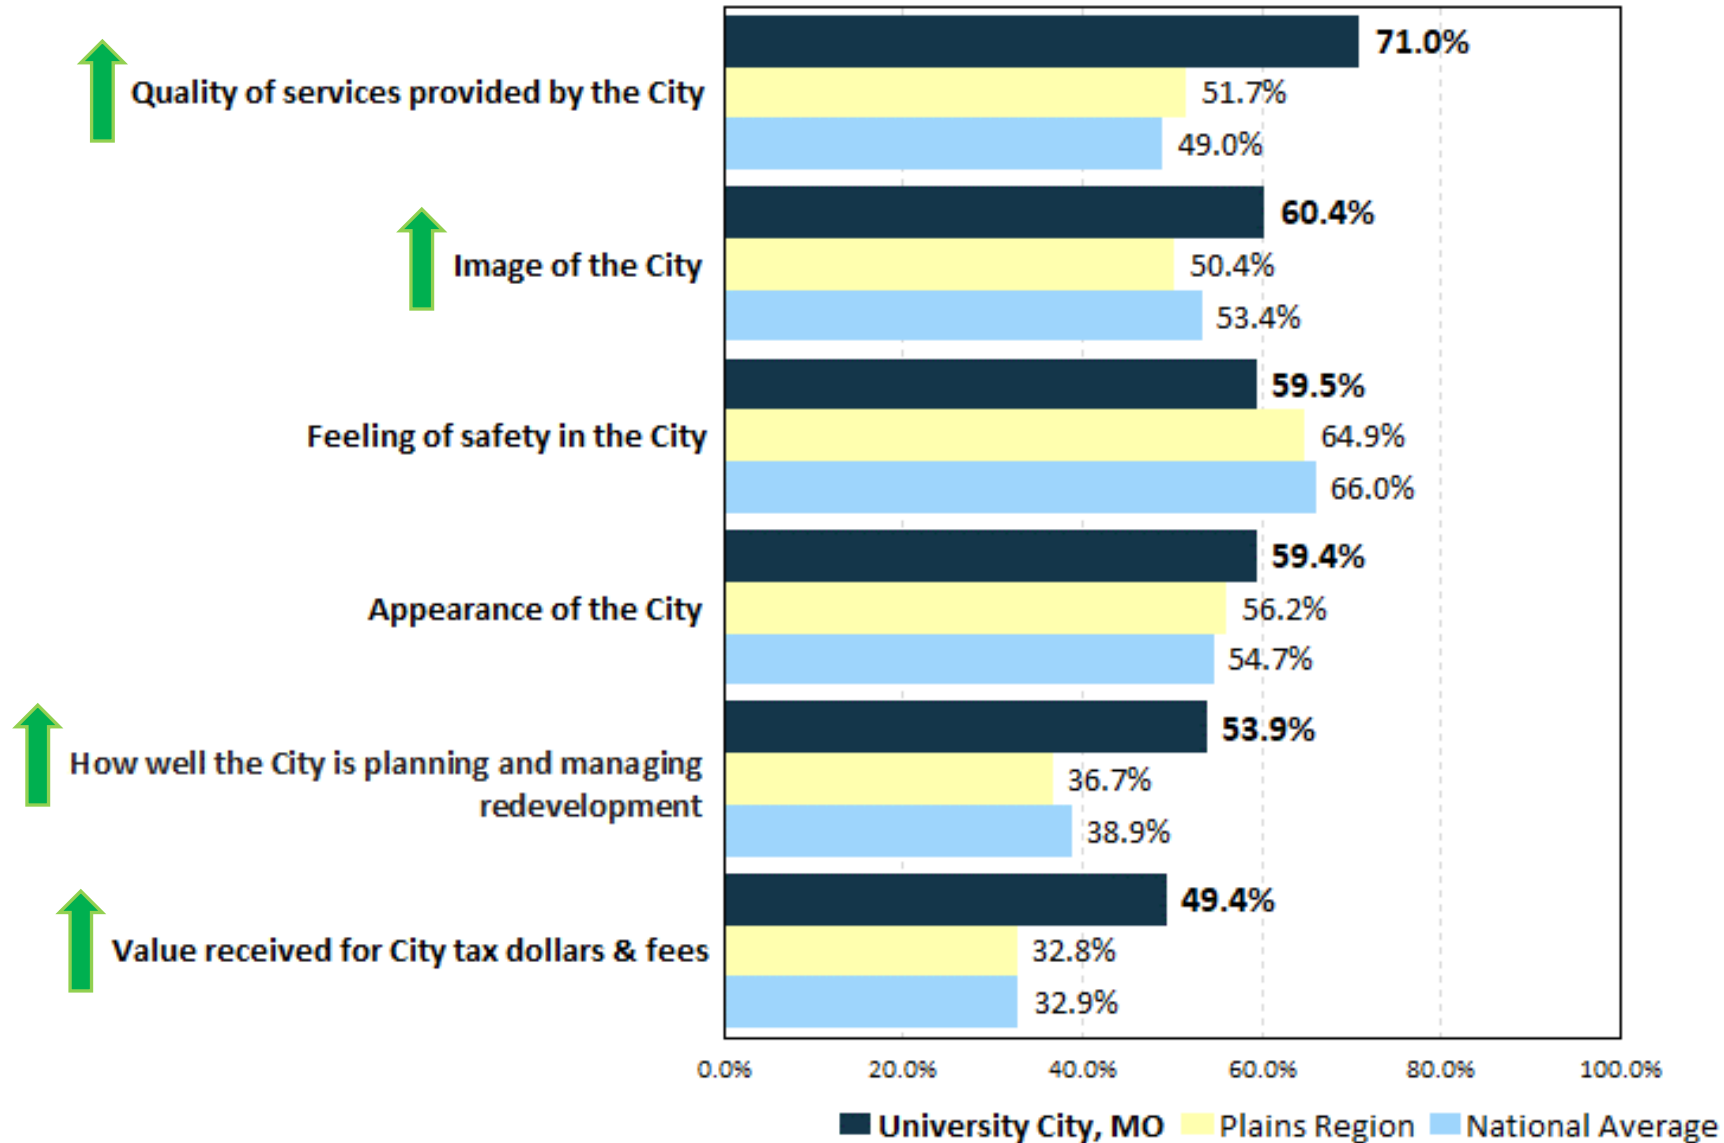

by the sum percentage of respondents that were either *very satisfied* or *satisfied* with the service
(excluding *don't know* responses)

Benchmarking provides much needed context to the results that otherwise would not exist

Community Perception Ratings

by the sum percentage of respondents that gave a rating of either *excellent* or *good*
(excluding *N/A* responses)

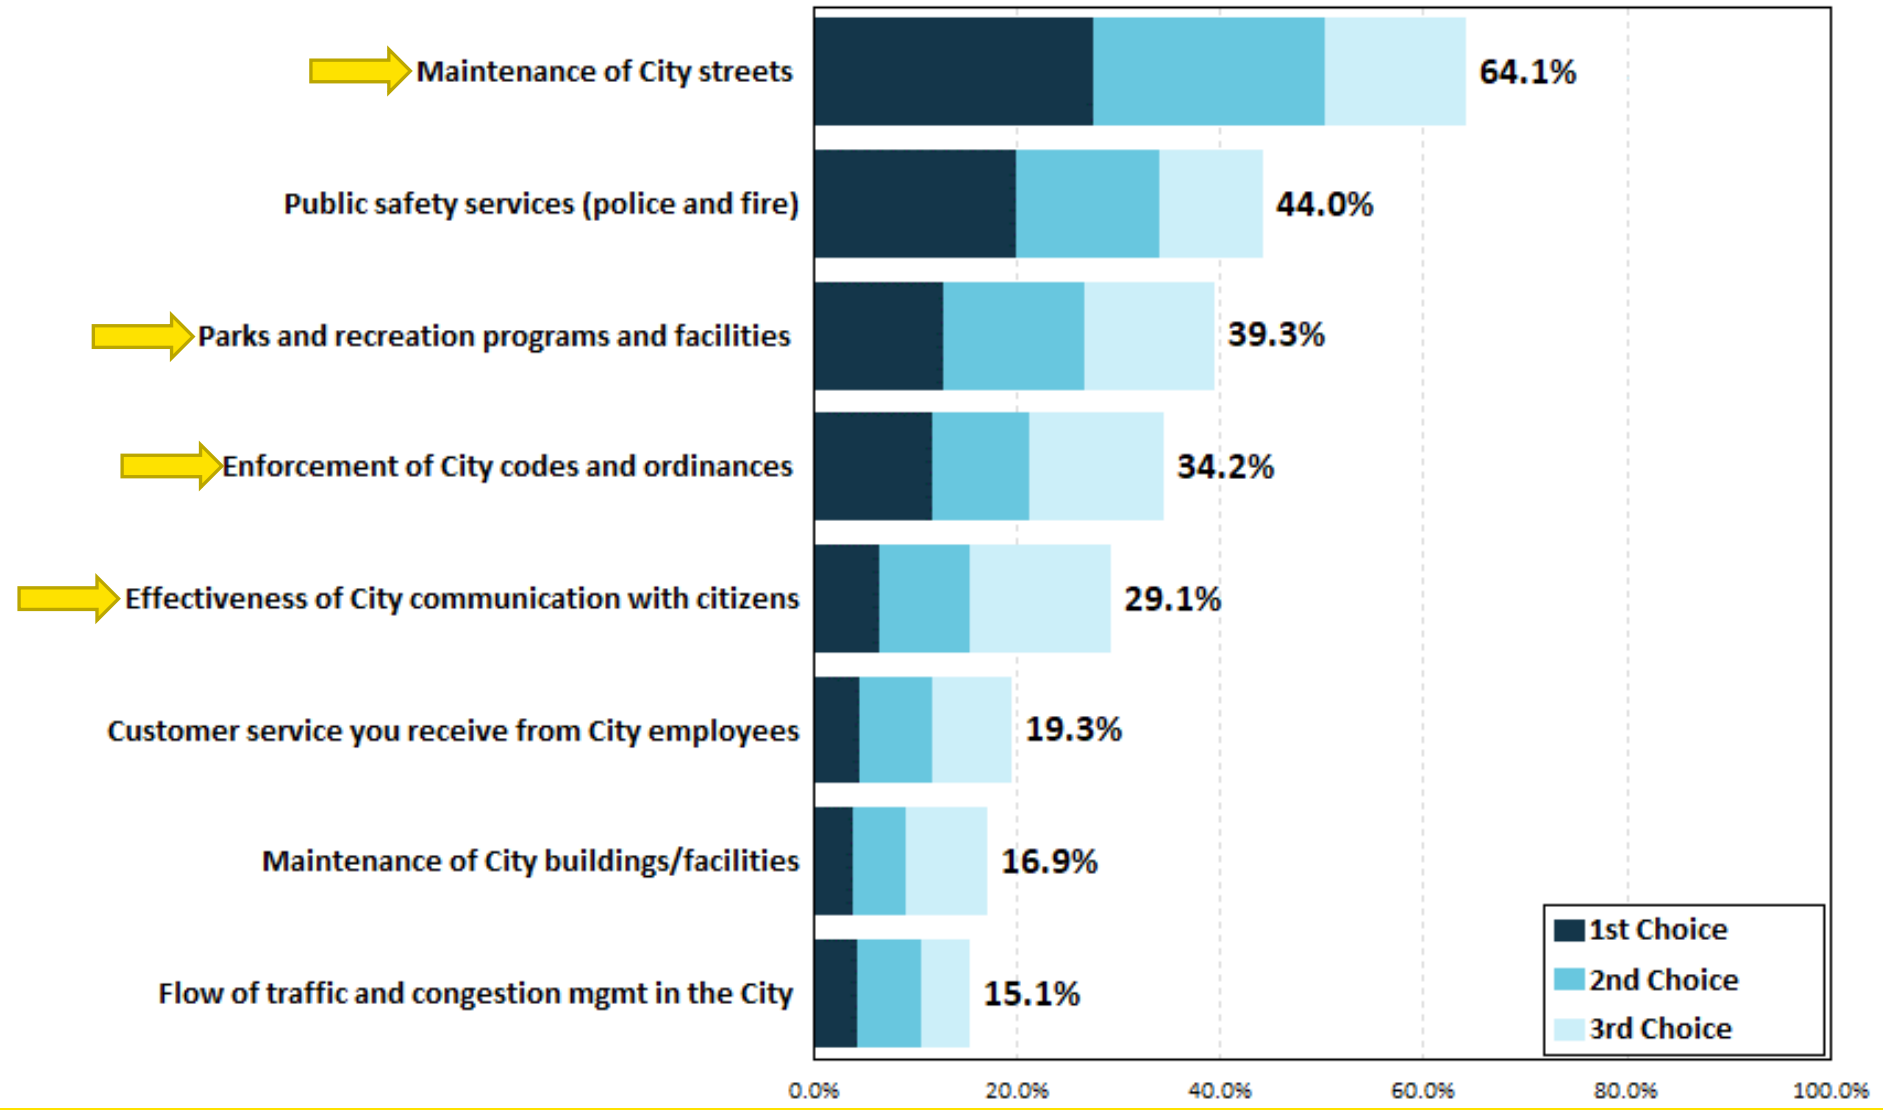

By understanding how we perform comparatively we can gauge true performance in various areas

Priorities for Improvement

IMPORTANCE-SATISFACTION ANALYSIS

Q2. City Services That Should Receive the Most Emphasis Over the Next Two Years

by the sum percentage of respondents' top three choices

The Importance-Satisfaction Analysis relies on both satisfaction and importance ratings to determine priorities
