

SPECIAL PARKS COMMISSION MEETING
Centennial Commons – Board Room
7210 Olive Blvd.

Tuesday, April 8, 2025
6:30 p.m.

AGENDA

A. MEETING CALLED TO ORDER

B. ROLL CALL

C. APPROVAL OF AGENDA

D. NEW BUSINESS

1) Farmer's Market – Heman Park Location – Deb Henderson

E. ADJOURNMENT

PLEASE NOTE LOCATION

OFFICE OF THE CITY MANAGER

6801 Delmar Boulevard, University City, Missouri 63130, Phone: (314) 505-8531

M E M O R A N D U M

TO: Members of the Parks Commission

FROM: Brooke A. Sharp, Deputy City Manager - Development

DATE: April 7, 2025

SUBJECT: Farmers Market Location – **Vote Required**

This agenda item asks the Parks Commission to consider the U City Farmers request to utilize Heman Park for the 2026 – 2027 season.

After many years, the U City Farmers Market will no longer be held in the Delmar Loop. The Executive Director, Deb Henderson, has submitted a request to use Heman Park for the current season. Staff has reviewed the request and has concerns about the proposed use. Staff is recommending use of the green space surrounding Memorial Fountain at Centennial Commons.

The location at Heman Park boasts lots of amenities that are utilized by members of the public year-round, but especially during that Spring/Summer months. There are a number of activities that take place in Heman Park, such as family reunions, sports practices for various teams, and family activities. Attached is the schedule from 2024, which will give you all an idea of the various activities taking place at Heman Park. I am also including the 2025 schedule which reflects the activities booked to date.

Staff's primary concern is that the addition of the Farmers Market to Heman Park will cause congestion at the entry/exist and interfere with the sports activities and pavilion rentals at the park. Staff has recommended the use of the green space at Centennial Commons because it is more of an open space, has more than one entry/exit, and the other activities that take place at Centennial Commons will be far removed from the Farmers Market, reducing the likelihood of interference. Staff will discuss in more detail at tomorrow's meeting.

Deb Henderson has prepared a comparison of both locations as viewed from her perspective. That document is attached for your review.

Deb Henderson will be present at the meeting tomorrow evening to present her request. I will present staff's recommendation. You all will be asked to consider both and vote on a recommendation.

Recommendation: Motion to recommend use of the green space around the Memorial Fountain located at Centennial Commons for the U City Farmers Market.

UCFM STORAGE UNIT PLACEMENT FOR 2025 SEASON
HEMAN PARK AT 1028 MIDLAND BLVD

HEMAN PARK FARMERS MARKET PROPOSAL

Assessment of Available Market Sites in Heman Park
1028 Midland Blvd and 7210 Olive Blvd.

GOAL: To move the U City Farmers Market to a new location; where it will thrive by retaining its current customer and vendor bases as well as attract new visitors; and where it will continue to offer and add value and services to University City communities and the surrounding areas.

TASK: To review two sites in Heman Park as possible locations for the U City Farmers Market in 2025. We visited and assessed the site around the fountain at 7210 Olive Blvd (Market Site 2) and compared it to MAFM's proposed site at 1028 Midland Blvd (Market Site 1).

We assessed six (6) Categories when we visited the sites: Market Site Layout; Visitor and Vendor Parking; Existing Amenities; Storage Unit Placement; Walkability from Surrounding Neighborhoods; and General Location in St Louis County.

COMPARATIVE ASSESSMENTS:

MARKET SITE 1: 1028 MIDLAND BLVD

- Market Site Layout:
 - Vendor Egress into Market Site: Vendor tents will set up around the perimeter of the Site. Site is surrounded by either parking lots or driveways which allows for vendors to park close to their vendor spaces for loading and unloading. The site is flat, which allows for easier transport of equipment and supplies.
 - Pedestrian Traffic: Visitors have multiple entries into the Market Site. This layout of this Site is interactive with and easily accessible to other visitors to the Park.
 - Accessibility: This site is mostly flat with vendor tents on the perimeter, making it more accessible to those with walking aids, strollers and other special needs

- Visitor and Vendor Parking:
 - Visitor Parking: There are multiple large parking lots offering a variety of parking options for visitors. Other organizations use this area for youth sports and music concerts. Residents use this area of the park for picnics.
 - Market-Goer Parking: Most market visitors come and go quickly after shopping, thereby regularly freeing up parking spaces for others to park in.
 - Vendor Parking: With multiple large parking lots, vendors have the option of moving their vehicles to the less busy lots. A few farmers may keep their vehicles nearby to reduce the amount of time for set-up and take-down and limit traffic flow interruptions.

- Amenities:
 - Electricity and water are available.
 - Large trees provide shade for vendors and visitors
 - Restrooms are available and close to the market site
 - Playground is near the market site

- Storage Unit Placement:

Offers two options immediately next to the site. This reduces the amount of time needed for set-up and take-down of the market.

- Walkability from Surrounding Neighborhood:

This site is in a residential neighborhood making it more walkable and accessible for bicycles. This lessens vehicle traffic and the need for market-goer parking in the Park near the market.

- General Location:

Centrally located with convenient access for the market's existing customer base. It is closer to other activities and events in the region.

MARKET SITE 2: 7210 OLIVE BLVD

- Market Site Layout:
 - Vender Egress into Market Site: There are no driveways or walkways into the market site around the fountain. Vendors will not be able load and unload their equipment and supplies directly into their spaces.
 - Pedestrian Traffic: Visitors have multiple entries into the market site. This Site is not very interactive with other visitors to the park
 - Accessibility: This site is on a hill and further away from parking, which makes it less accessible to those with walking aids, strollers or other special needs

- Visitor and Vendor Parking:
 - Visitor Parking: One large parking lot offering limited parking options for visitors. Other organizations and visitors use Centennial Commons for meetings and events, indoor fitness activities, and outdoor swimming activities.
 - Market-Goer Parking: Most market visitors come and go quickly after shopping, thereby regularly freeing up parking spaces for others to park in.
 - Vendor Parking: Spaces near the market site would be used for vendor vehicles, ensuring access to the market site for take down, as the parking lot fills up.

- Amenities:
 - Water and limited electricity are available
 - Large trees are nearby, but do not offer shade to all of the fountain area
 - Restrooms are available in Centennial Commons

- Playgrounds are not near the Market Site.
- Storage Unit Placement:
Does not offer any easy access placement options immediately next to the market site. This significantly impedes the set-up and take down of the market and would increase the amount of time it takes to execute them.
- Walkability from Surrounding Neighborhood:
This site is bordered on the north side by a depressed business district on Olive Blvd. It is not in an easily walkable residential neighborhood which increases market-goer vehicle traffic.
- General Location:
This Site is not centrally located and it does not provide convenient access for all of the market's existing customer and vendor bases. It is further away from other activities and events in the region.

CONCLUSION

After visiting the two proposed market sites in Heman Park and assessing the criteria necessary to meet the goal of creating a successful season for the U City Farmers Market, we conclude that the Market Site at 1028 Midland Blvd is the only viable location for the market at this time.

From an operations perspective the Midland Site satisfies the criteria outlined in each category, while the Site at 7210 Olive Blvd presents many obstacles. This is important not just for implementing the tasks necessary to running Market Day Operations, but it's also essential to the optimizing the way that the Market and its vendors and visitors utilize and interact with the Park itself.

When the Market Site Layout, Visitor and Vendor Parking, Existing Amenities, and Storage Unit Placement are available and easily accessible, the U City Farmers Market's crew are better equipped in providing smooth and efficient operations. This ensures greater compatibility with other activities and visitors at Heman Park. The Market Site at Midland Blvd offers this. The site at Olive Blvd does not.

For the reasons outlined above, we request that the MAFM be given permission to host the U City Farmers Market at 1028 Midland Blvd in 2025. This market location provides the greatest opportunity for the U City Farmers Market to retain its current customer and vendor bases, to have a successful market season, and to continue serving the communities of University City.
